📄 PROFILE

Passionate Software Engineer with a strong foundation in object-oriented programming (OOP) and a focus on creating exceptional user experiences. Skilled in web development and problem-solving, with experience in both client-side and server-side development. Adept at translating UI/UX wireframes into efficient, scalable code and bridging the gap between design and technical implementation. Quick to learn new technologies and excel in collaborative team environments, bringing innovative solutions and fresh perspectives to every project.
